

### Interventions on police\_data\_weather\_km.xlsx

- Renamed to police\_data\_weather\_km\_with\_streets.xlsx
  - (Extracted street data in column L)
- Stupid characters removed
- Locations updated with *incident location*, omitting victim's place of residence.
  - Original column saved in column X for posterity.
- Missing locations inserted when missing
- Highlighted multiple rows discussing separate incidents
  - Possibly split into separate rows)
- When possible, updated some locations as they were “off”
  - Picking victim's place of residence
  - not thorough exercise (very... manual 😊 )
- Rabat Gozo is now Victoria
- Location normalization
- Iż-Żebbuġ refers to Gozo, Żebbuġ to Malta
